Anemone

Acer saccharinum

Carpinus betulus

England

- Countryside, hills, large fields, winding (meandering) streams important elements in English landscape
 - Influence by French gardens, although French garden are not suitable for the democratic English man
 - Influence by Italian gardens
 - Influence by the orient China and Japan
 - Parterre and terraces of the formal garden were replaced with rolling grassland, clumps of trees, lakes, winding rivers and serpentine drivers.
-
- Romantic movement; direct observation of nature and the principle of painting. poetry, paintings- beauty of nature and landscape
 - Picturesque scenery paintings of Claude Lorrain, Salvador Rosa, Nicolas Poussin.
 - not actual views, composition of landscape elements mountains pastoral plains rivers lakes, temples, Bridges, Statues, allegorical and symbolic figures...
 - Romantic movement emerged as opposed to the classical and formal – beauties of nature and landscape.
-
- William Kent
 - Capability Brown

Claude Lorrain painting of Stourhead

English Gardens

knot garden is “a formal garden planted with miniature, permanent hedges laid out in geometric or elaborately scrolling patterns.”
