```c
#include <stdio.h>
#include <stdlib.h>

int main()
{
    int grade;
    printf("Enter grade\n");
    scanf("%d", &grade);
    if (grade >=90)
        printf("The student evaluation is excellent\n");
    else if (grade >=80)
        printf("The student evaluation is very good\n");
    else if (grade >= 70)
        printf("The student evaluation is good\n");
    else if (grade>=60)
        printf("The student evaluation is passed\n");
            else
            printf("The student has failed\n");
            return 0;
    }
```
